☑ Valid Scenarios

100%

- ~~Validate disappearing returning date when click on one way trip~~
- ~~Validate one way flight booking with today's date~~
- ~~Validate one way flight booking with valid data~~
- ~~Validate return flight booking with valid data~~
- ~~Validate the trip type default value is Return~~

☑ Invalid Scenarios

100%

- ~~Validate booking a one way trip isn't allowed when origin and destination cities are the same~~
- ~~Validate booking a return trip isn't allowed when origin and destination cities are the same~~
- ~~Validate booking a return trip isn't allowed when return time is earlier than departing time~~

- Validate booking a trip isn't allowed when departure date is in the past
- Validate booking a trip isn't allowed when no city is selected in destination field
- Validate booking a trip isn't allowed when no city is selected in origin field
- Validate booking a trip isn't allowed when return date is in the past
- Validate choosing multiple flights at the same time
- Validate System behavior when selecting date far in the future
- Validate System behavior when selecting invalid date (e.g., 30 Feb)
